

Show 'em in Sets And You'll Sell 'em that Way

EVEN when a customer comes for a single tappet wrench, show him this SET of six Tappet "Superrenches". It's just as easy. And usually it's far more profitable.

Few users of wrenches can resist the slim beauty of these brilliant, Chrome-Plated "Superrenches" in their handy, leatherette case. And their convenience is unbeatable—six wrenches that adjust the Tappets on 80% of all cars and trucks.

They're extra long and thin—thinner even than other "Superrenches". Yet, like all Chrome-Molybdenum "Superrenches", they're *guaranteed against breakage*. Show 'em as a SET and your wrench profits will multiply.

Set No. 1063 (above) contains six genuine "Superrenches," Tappet Pattern, covering every size Tappet from $\frac{1}{2}$ to $\frac{7}{8}$ ". Packed in Leatherette roll case.

*A Handful of Helpfulness
On Fussy Electrical Jobs*

The New Midget "SUPERRENCH" ELECTRICAL SET

SHOW all your customers this new Electrical Set. Most of 'em are prospects. And most prospects *buy* when they see this handful of electrical helpfulness.

Electricians, radio fans, mechanics and motorists—all who have fussy electrical jobs to do—need this convenient "Superrench" kit. Each of its seven wrenches has two openings of the same size—but at different angles. Where the 15° head can't operate—the 75° head will. Between them, they reach any nut or bolt in a timer, magneto, generator, or radio. And they're handy, too, on other delicate work.

Remember—though these tiny tools are extremely thin and light—they're forged from Chrome-Molybdenum steel and like every "Superrench," each is guaranteed against breakage.

WILLIAMS
THE DROP-FORGED TOOL

**Sell 'Em Sets
As Christmas Presents**

Williams' Midget Wrench Sets are gifts that car owners and radio fans welcome—use—and remember.

**You'll Find
New Uses Every Day
For This Time Saving Set**

THERE'S something personal about the Obstruction Wrench Set. Designed to make work easy on the carburetor, manifold, rear end and steering gear, this time-saving kit also has a way of solving your individual service problems.

WILLIAMS

Its five Obstruction "Superrenches" — with their narrow, pointed jaws, and thin heads set at a 75° angle work around interfering parts that you once had to remove. You'll find new uses for them every day, economizing time and effort on awkward jobs.

Like all "Superrenches", the Obstruction pattern is forged from Chrome-Molybdenum Steel—Every "Superrench" is guaranteed against breakage—and finished in hard, tarnish-proof Chrome Plate. In their leatherette roll case, these five wrenches, covering all popular S. A. E. and U. S. Standard nuts and cap screws, are an immense help around your own shop. And a mighty fine Christmas resale proposition as well.

LIST PRICE \$8.85

A LONG, LEAN HANDFUL of HELPFULNESS . . .

SET No. 1025

Set No. 1025, contains six genuine Chrome-Molybdenum "Superrenches" with 12 different openings from 3/8" to 1". Fits all popular S. A. E. and U. S. Std. Nuts and Cap Screws. Packed in a handy Leatherette roll case. An ideal wrench kit for the service man, or car owner.

LIST PRICE—\$12.10
(Net Price \$8.07)

WILLIAMS
"SUPERRENCH"
(Chrome-Molybdenum)

When you pick up a Williams' "Superrench" you know instantly that here's a handful of real helpfulness. Its balance—its "feel"—spell working comfort and efficiency. The leverage is long enough to start the tightest nut. And yet, the thin heads with pointed jaws find working clearance in the narrowest corners.

Don't be misled by their thinness. Once between their amazingly tough jaws, the nut moves, or the bolt breaks. Every "Superrench" is guaranteed against breakage.

Good dealers everywhere handle Williams' "Superrenches" because good mechanics find them better working companions.

WILLIAMS

When He Asks for a Tappet Wrench Hand Him the Set!

PUT the Set in his hands—with the size tappet wrench he asked for, half pulled out. In the majority of cases, he'll take the Set. It needs no great sales effort. The Set does its own selling, for these six tappet "Superrenches" are a handsome handful in their Leatherette case. Tempting to any mechanic.

They adjust the tappets of eighty percent of all cars and trucks. Extra long—extra light—extra thin. But *strong!* Every "Superrench" is guaranteed against breakage.
